

CALIFORNIA FISH PASSAGE FORUM

MEMBERSHIP OVERVIEW

The California Fish Passage Forum is comprised of signatory agencies, which commit to participating in the Forum through our MOU. Signatories assign a designee to represent their organization at the Forum. Signatories are encouraged but not required to assign an alternate member, who can participate in addition to, or in place of the designee. The entire Forum membership comprises the Steering Committee, while most day-to-day Forum operation is through monthly subcommittee meetings. Forum members are encouraged to join at least one subcommittee.

The Forum would occupy 5-10 hours/per month of your time depending on the types of tasks and events throughout the year.

Typical tasks include determining current and future Forum priorities, reviewing funding applications, providing perspectives on fish passage issues, and helping organize virtual and in-person informational and outreach events.

The Forum meets at least annually at various locations throughout California. Hybrid options are offered whenever possible, however in person-attendance is preferred.

BENEFITS

STAY INFORMED

Keep apprised of the strategic priorities of decision-making organizations, changes to policy or programs that influence the climate of fish passage restoration.

ACCESS DIVERSE EXPETISE

Gain perspectives on current and future restoration design, policy, and investment from federal, and state agencies and non-profits with expertise and experience.

JOIN A NATIONAL MOVEMENT

Help advance the scale and pace of fish passage restoration by joining forces with enthusiastic and engaged organizations in California and beyond.

SHOWCASE YOUR IMPACT

Utilize the Forum's platform to communicate, collaborate, and advertize your agency programs to other organizations and to project practitioners.
